EDUCATION

S.R.M. Institute Of Science and Technology

Aug 2023 – May 2027

Bachelor of Technology in Artificial Intelligence

CGPA: 8.54

Aditya Birla Public School

March 2023

CBSE Class XII

84.2%

Aditya Birla Public School

March 2021

CBSE Class X

93.2%

EXPERIENCE

IT Intern - Hindalco Industries Limited

Jun 2025 – Jul 2025

Information Technology Intern

Hirakud, Odisha, India

- Engineered a **MERN**-based Tools Tracker supporting 3 role-based workflows (Admin, Toolskeeper, User), reducing manual inventory tracking effort by **40%**.
- Developed and maintained RESTful APIs for 10+ workflows, including authentication, tool requests, approvals and returns, improving operational request turnaround.
- Optimized **MongoDB/Mongoose** schemas using indexing, validation and efficient data modeling, improving frequently accessed inventory query performance by **25%**.

PROJECTS

SaaS Subscription Revenue Operations

Jul 2026 – Jul 2026

- Built an automated ETL pipeline using Python, pandas, and SQLAlchemy to transform **7,043 subscription records** into a **star schema**, engineering 14 revenue metrics including MRR, ARR, ARPU, LTV, NRR, and MRR-at-risk.
- Designed **30+ SQL analytical queries and 6 Power BI-ready views** to analyze revenue, customer segmentation, cohort retention, ARPU, and subscription performance, converting raw data into decision-ready business insights.
- Identified key revenue and retention drivers, including **43% of MRR concentrated among the top 20% of customers**, **14x lower churn for Enterprise vs. Starter**, and a **+35pp Month-24 retention improvement**.

E-commerce Marketplace Operations & Seller Performance Analytics

Aug 2026 – Aug 2026

- Analyzed **99,441 e-commerce orders across 9 relational tables** using SQL, Python, Power BI, and Excel to evaluate revenue, customer behavior, delivery performance, and seller operations.
- Performed RFM segmentation, cohort analysis, Pareto analysis, and SQL window-function analytics, identifying that Champions and At-Risk High-Value customers contributed **66.8% of GMV (\$8.84M)** despite representing 39.6% of the customer base.
- Evaluated delivery and seller performance, finding **68.7% 1-star reviews** for orders delayed over 7 days and translating seller-level fulfillment gaps into customer-retention and operational improvement recommendations.

AI-Assisted Data Analytics Web App

Apr 2026 – Apr 2026

- Developed a full-stack AI-assisted data analytics web app using **Python, pandas, NumPy, Streamlit, Plotly, and OpenAI API** for automated EDA, visualization, and insight generation from CSV datasets.
- Implemented automated data cleaning, encoding detection, missing-value imputation, and duplicate removal using Pandas and NumPy.
- Integrated Plotly and OpenAI API to generate interactive charts, business insights, trends, and anomaly detection from dataset context.

TECHNICAL SKILLS

Languages

SQL, Python, C++, JavaScript, TypeScript

Data & Analytics

Data Analytics, Business Intelligence, Data Visualization, ETL, Data Modeling, Cohort Analysis, Customer Segmentation, Revenue Analytics, Customer Analytics

BI & Libraries

Power BI, DAX, Excel, pandas, NumPy, SQLAlchemy, Plotly, Jupyter

Databases & Tools

PostgreSQL, SQLite, MongoDB, AWS, Git/GitHub, Postman, OpenAI API, Supabase

Frameworks

React.js, Node.js, Express.js, Django, Flask, Next.js, FastAPI, Streamlit

Core

Data Structures & Algorithms, OOP, REST APIs, System Design (HLD), DBMS, Machine Learning, Generative AI, LLMs

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02)

Oct 2025 – Oct 2028

AWS Certified AI Practitioner (AIF-C01)

Nov 2025 – Nov 2028
